Forecast For Wales
Issued by Met Office Exeter
at 0400 on Sunday 14 Feb 2021

++ Valid for broadcast between 0600 and 1800

Headline:
A wet and windy outlook, but much milder than recently.

Today:
A wet start in the west with outbreaks of rain which soon move east to cover the whole country Further rain arrives in the afternoon, heavier and more persistent. Milder but windy, with a risk of gales at the coast. Maximum temperature 11 deg C (52 deg F).

Tonight:
Rainfall continues into the night, moving eastwards,�but taking all night to clear eastern areas.�Remaining breezy, but much milder than many recent nights.�Becoming quite murky later. Minimum temperature 4 deg C (39 deg F).

Monday:
A murky start, then a mostly dry day with sunny spells and the odd shower. Some outbreaks of rain arrive later during the night. Feeling mild, despite a brisk breeze. Maximum temperature 12 deg C (54 deg F).

Outlook for Tuesday to Thursday:
Bright or sunny spells and blustery showers on Tuesday and Wednesday. Heavy rain overnight into Thursday, this clearing later in the day. Windy throughout.
